

Fair offers women the right choice

Special Correspondent

CHENNAI: For all those women looking for that right job and an exciting career, here's an opportunity to meet a number of prospective employers under one roof. 'The Hindu Women Opportunities Fair 2011' is here. It will be held on March 19 at Laity Auditorium, 17, Balfour Road, Kilpauk, from 9 a.m. to 6 p.m. The event features over 20 organisations from the IT, ITES, retail, and automobile sectors. Participating companies include HCL, L&T Infotech, Ford Technology Services India, Wipro, TAFE, Future Group, Scope International, CADS Software India and Mobius Knowledge Services.

The fair seeks to give the participants an opportunity to explore a host of part-time and full-time jobs, options that comes with flexible timings spanning different areas such as engineering, marketing, finance, accounts, office administration, human resources and information technology. *The Hindu Women Opportunities Fair* is jointly presented by Accenture and Sutherland Global Services as associate sponsors. AVTAR Career Creators, the knowledge partner, will offer counselling, assessment and placement service at the venue. Recruiters see the fair as a one-stop destination for spotting candidates with the

right mix of talent, qualification and attitude. Prithvi Shergill, Senior Vice President – Human Resources, Inclusion and Diversity, Accenture, says: "*The Hindu Opportunities Fair* is an important event to us in attracting the best of talent". Saundarya Rajesh, Founder-President, AVTAR Career Creators, says: "Thousands of options are on offer for women participants at this fair. This is ample evidence of the growing importance of gender diversity at workplace".

Interested candidates could register online at www.avtariwin.com/women-jobfair. Once the process of registration is complete; candidates need to take a print-out of their registration acknowledgement, with a unique registration number. This print out has to be brought to the fair along with about 30 copies of candidates' resumes. The fair is expected to generate over 7,500 jobs.
